Key Stage 3 End of Year Assessments

Dear Parent/ Carer

I hope this letter finds you well. I am writing to inform you of upcoming assessments for Key Stage 3 students. For this assessment window we are sharing information about English, Mathematics and Science assessments to give you the ability to support your children in preparing for the End of Year assessments.

Holistic assessments will take place in several subjects for students in Year 7 to Year 9, with the majority being between 13th May 2024 and 30th May 2024. These will assess the skills gained by students over the year to date.

All assessments will take place in classrooms, with the exception of Year 9 English, Mathematics and Science, which will take place in the Exam Hall during practice week. This will help Year 9 students develop an understanding of the exams process before they start their Key Stage 4 studies.

Assessments will take place in English, Mathematics, Science, Geography, History, Modern Foreign Languages, Music and RMPS. Information about the assessments, revision lists and preparation materials are supplied by subject teachers to students via their class Microsoft Teams page.

Support and revision resources for the English, Mathematics and Science assessments are also available in the Key Stage 3 section of Curriculum and Learning on the school website. A link to this can be found at the bottom of the page. We will be developing resources for all subjects for the next academic year, which will further help you support your child with their learning.

Please find below a timetable which highlights the weeks in which assessments are happening. Teachers will also share the specific timing of each assessment with their classes.

I hope you find the extra information useful to support your child's learning.

Yours sincerely

William Wood
Assistant Headteacher
