

In September, when you return to school, you will be working on a project based on your reading of a recommended book.

All the recommended books are in this leaflet and you should choose one title which you think you will enjoy.

These books are available in libraries, bookshops and online, so talk with your family about the best way to access them.

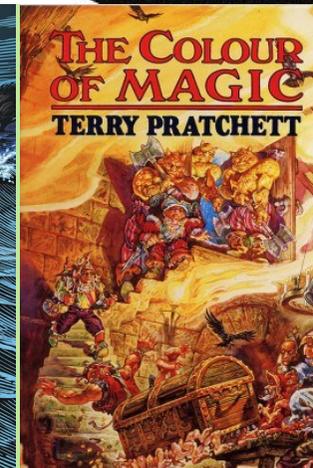

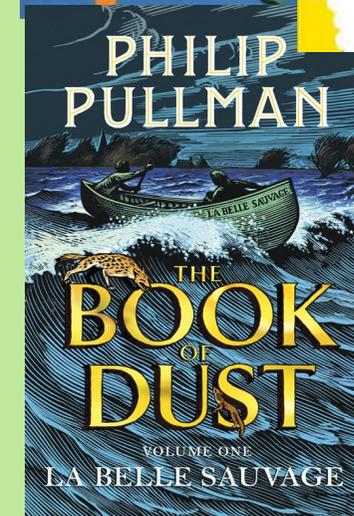

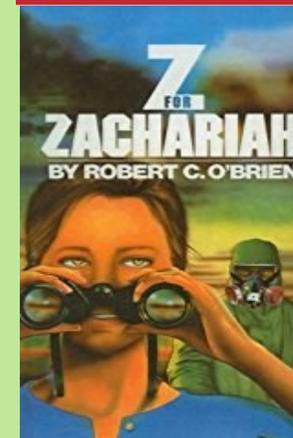

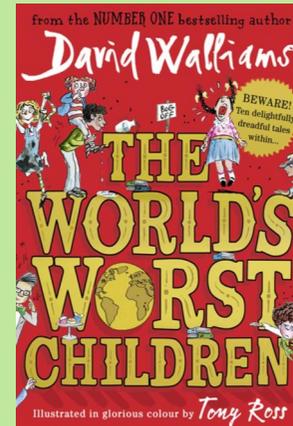

Once you have selected a title from one of the 3 levels of challenge, find a copy of the book, and read it during the holidays. It might help if you make notes to help with your review of the book when you come back to school—you could record the characters, the plot, the settings, the main themes, and your thoughts and opinions about why you would recommend or not recommend this book to others in your class?

ALL students in Yrs 7 and 8 will be doing this activity, and Yr 9 students will have a different list to help prepare them for the reading demands of IGCSE.

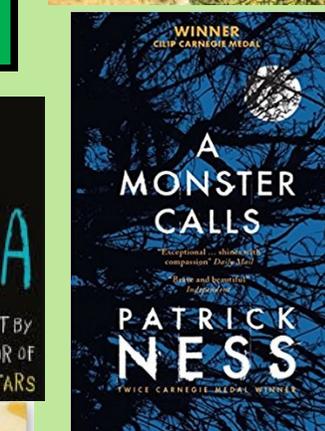

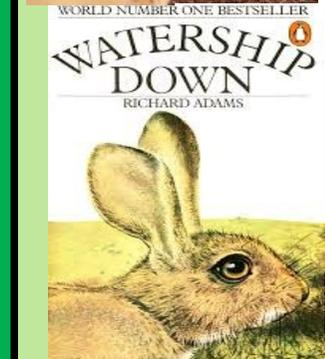

If you have any questions, or wish to choose a book not on this list, please see your English teacher before 20th July.

Happy reading!

Why not try something new this summer?
