Re: Calculators

Dear Parent/Carer

I hope this message finds you well. As our assessments are coming up shortly, I wanted to take a moment to emphasise the crucial role that having the right maths equipment plays in your child's learning journey.

Mathematics as a subject demands both conceptual understanding and practical application. To excel in mathematics, students need not only a solid grasp of mathematical concepts but also the ability to work with mathematical tools and equipment. Having the appropriate maths equipment to hand is essential. Our GCSE and Key Stage 3 programmes are built around non-calculator and calculator processes.

For your convenience, we offer the option to purchase the Casio FX83GT-CW scientific calculators for just £10 via our ParentPay system. These are the ones we recommend for our students. We believe this price represents excellent value for money.

If you ever have questions about the specific maths equipment your child needs for their upcoming assessments, or if you face any challenges in acquiring these items, please do not hesitate to reach out to us in confidence. We are here to support you and your child's educational journey in every way possible.

Thank you for your commitment to your child's education. Together we can help them build a strong foundation in mathematics and set them up for success in their academic pursuits.

Kind regards

Mr Michéal Flynn
Team Leader Mathematics
