09 September 2022

Dear Parent/ Carer,

CAT4 Testing for Students in Year 7

In the week beginning 19th September students in Year 7 will be sitting CAT4 diagnostic tests which will help us identify areas in which they may need support. This is not a test that can be revised for and, as such, there is no need for students to be concerned about it.

The tests are designed to be completed by all students in the same length of time without support, which will give us the greatest insight into areas where each student requires help. Therefore, student access arrangements do not apply in these diagnostic tests.

There are eight small sections to the test, these will be completed in a double and single lesson, in tutor groups. All sections will be completed on the ISC computers.

I will be in contact shortly regarding the days and times of the assessments. Further information, including example questions can be found on the school website, [here](#).

Yours sincerely,

Mr W Wood
Assistant Headteacher
