Reports and Targets 2025-26

Dear Parent/ Carer

I hope this letter finds you well, please find attached your child's report.

I am also writing to explain the changes to our reporting this year.

The reports this year have a different look to previous years due to a change in our school management software. This has also allowed us to provide you with extra information which was not on the previous reports. Below is a brief overview of the new report titles:

Current Grade: This is the grade at which your child is currently working, their teacher has assigned the grade using a variety of in-class and formal assessments.

Target Judgement: Is an automated calculation as to whether your child is currently meeting their target grade.

Attitude to Learning: This is the teacher's interpretation on the engagement of your child in lessons and homework, an explanation of the characteristics of each grade can be found on the attached report information.

Progress: This is the teacher's opinion as to whether your child is on track to achieve their target grade, an explanation of the characteristics of each progress can be found on the attached report information.

Target grades are generated using baseline data we receive from CAT4 Tests, prior assessment and UK national data. In general, these targets are set at a higher level than in previous years and thus you may find your child is not meeting or exceeding these grades as readily as they did in previous years. We will be regularly monitoring target grades and considering how best we use them however please be assured, if your child is meeting their target grades then they are achieving exceptionally well.

If you have any questions regarding the reports or specific questions regarding your child's progress at Ramsey Grammar School, please contact the school vis rgsenquiries@sch.im.

Yours sincerely

Mr W Wood
Assistant Headteacher
